Different Forms of Microblading	18

What is Microblading

All techniques of Microblading are forms of semi permanent brow tattooing or cosmetic tattoo. Unlike traditional tattooing, a small hand tool with tiny needles or a small tattoo pen is used to implant pigment (not ink) at a more superficial depth. The point of this technique is so that it naturally exfoliates out of your skin.

Microblading

Microblading looks like very subtle hairlike strokes that fills in, defines and shapes brows in a natural manner. This technique is ideal for dry or normal skin types. On average, Microblading lasts around 18 months but is based on clients lifestyle, skin type and other factors. We recommend a color boost touchup every 12-18 months but It can certainly stay visible longer or fade faster.

Ombre Shading

Unlike Microblading, this technique doesn't place hair strokes but instead gently inserts pigment into the skin by using a small pen like machine. The brow is fully covered with a light color to give a soft and misty look. After this technique has healed, it should look like you've lightly filled your brows with makeup.

**Great for all skin types*

**Last longer and less touchups are required (18 months-3 years)*

**Ideal for oily skin types, for those looking for the most coverage, very sparse Brows or someone who is more prone to bleeding*

Blading & Shading

This technique is great for the client who prefers microbladed hair strokes but would also like the fullness of the Ombré Shading. There are different variations of shading depending on clients preference. Typically after Microblading, soft color is used to fill in between hair strokes. More often than not, this technique is used to keep better retention on the tail of the brow.

*This is great for the client that likes the look of microblading but needs a little bit more coverage

*Last longer than traditional Microblading

*Less touchups are needed

Who Is NOT a Candidate?

**Those taking blood thinners*

**skin irritations near the area such as sunburn or eczema*

**Taking or using skin sensitizing products (including but not limited to Retinol/Retin-A/Vitamin A*

**Botox within the last two weeks*

** Accutane within one year*

** history of keloid scarring*

** undergoing Chemotherapy*

**people suffering from severe acne in the area*

** Pregnant women (those who are nursing will need consent from a physician)*

Consultations and the Day Of

Consultations prior to appointments are recommended for those with extremely oily skin, history of poor healing or extremely acne prone.

Consultations are required for those with prior permanent makeup on their brows.

The majority of clients will come in the day of their appointment (After following client preparation protocol)

We will:

- 1-Have you fill out paperwork and go over shape, color, expectations, healing etc
- 2-Map your brows to your expectations
- 3-perform your procedure of choice while using two forms of numbing
- 4-schedule 6-8 week (complementary) perfecting session and go over any additional questions

Client Preparation

- Avoid alcohol, caffeine, aspirin, and/or ibuprofen for at least 24 hours before the procedure.
- discontinue Vitamin A/Retinol or any topicals that thin the skin 14 days pre-14 days post microblading
- Most facials are okay 2 weeks prior to microblading however please ask your technician as it varies depending on the treatment
- 7 days prior discontinue fish oil and vitamin E microblading
- 7 days prior no Tinting/waxing
- No tan or sunburn on the brow area

After Care

Proper after care is necessary to achieve the best microblading results. We believe in dry healing...keep your face and area around your brows clean and let your body naturally heal itself :)

*No working out on the day of procedure. Body heat will expand your pores.

*Avoid working out for 10 days. The salt in your sweat can prematurely failed the treated area.

*Avoid direct shower water on the treated area after the procedure.

After Care

*NO water, makeup, lotions, pencil etc in the microbladed area for 7 to 10 days.

*Absolutely no sun, sweating or tanning for 10 days.

*Avoid scrubbing the area for 30 days.
Do not rub, scratch or pick at the treated area.

*Let any scabbing or dry skin naturally exfoliate off. Picking can cause scarring.

*No swimming until the area is completely healed. Salt water and chlorine can cause pigment to fade or change in color.

*Avoid sleeping on your face the first seven days.

*Wait two weeks to have your brows waxed after the procedure.

Healing Process

After any microblading procedure, there is an expected sequence of healing behaviors within the skin. There are differences in healing depending on skin type, age etc but the general trend of healing is:

Day 1

You may experience some swelling in the area which typically resolves soon after treatment. There may be residual plasma or blood clotting over the tattoo. This is a result of the body's healing process. Eyebrows will appear 30 to 50% darker and more intense in color.

Day 2-3

The eyebrows will begin to scab and hair strokes will feel somewhat raised if touched. You may experience itching as the skin starts to heal itself. It is critical to not pick or scratch the eyebrows! (Hair strokes may heal in patches)

Healing Process

Day 4-7

Scabbing and eventual flaking of the eyebrows will occur until they no longer feel raised. The itching sensation should be minimized once the skin has fully exfoliated. The skin may start to appear lighter (the pigment will reappear).

Week 3-6

The true pigment color and retention will be apparent. The perfecting appointment will fix any strokes and spots that did not retain or anything that can be perfected or corrected.

Payment Policy

Skin Sanctuary Boutique Spa accepts all major credit cards, debit cards, cash and Venmo. No checks or money orders.

We require a non-refundable \$50 deposit when booking your microblading service.

The deposit goes towards your final investment and holds your spot on our calendar.

Your appointment is not booked until you have paid the deposit. Please review our cancellation policy as well as preparation and aftercare prior to booking.

Cancellation Policy

Please read all policies prior to booking any appointments at Skin Sanctuary Boutique Spa.

We are blessed to be busy and want to provide our clients with outstanding customer service in a timely manner. Customer satisfaction is our highest priority. If you fail to comply to these policies we are unable to provide our clients with the best experience possible. As always, we are beyond grateful for your business and kindness!

A 48 hour notice is required to cancel or reschedule any semi-permanent or permanent makeup appointment. We ask you notify us directly via text, call or voicemail 48 hours prior. Should you fail so cancel or reschedule your appointment at least 48 hours before your appointment, you will forfeit your booking deposit.

Cancellation Policy

In order to rebook after not allowing a 48 hour cancellation notice, you will have to pay another non-refundable deposit.

Clients that cancel or reschedule an appointment within 12 hours of their appointment will not only forfeit your booking deposit but also will be required to pay the full balance of your missed appointment cost before you can rebook.

No call/no-show clients will forfeit their deposit, will be charged the remaining 50% of their service cost and will not have the option to reschedule with us.

No call/no shows or cancellations within 12 hours of a 6-8 week perfecting session will be required to pay for a touchup. Touchup prices can be found on our pricing menu.

Cancellation Policy

If you are more than 15 minutes late to any appointment, you will be asked to reschedule and the same policies above will apply.

There will be no exceptions to this policy. By scheduling your appointment with Skin Sanctuary Boutique Spa, you acknowledge that you have read, understand and agree to the cancellation policy.
